

Montgomery Museum and Lewis Miller Regional Art Center

Montgomery Museum Off-Site Gallery Agreement

In an effort to promote art in our community, the Montgomery Museum is offering local offices and businesses a new opportunity to support regional art and benefit your establishment in the process. Displaying the work of local artists on a rotating basis will give you and your visitors/clientele an enhanced visual space. It will also give you bragging rights for promoting fine art in the community. There will be no charge for this opportunity.

Your establishment will receive a new art exhibit four times a year. Each artist will provide a list of their artwork and will be responsible for printed labels and contact information. They will also provide a short bio to be displayed with the artwork. The artists will be responsible for any transactions. Anyone wishing to purchase artwork will be asked to contact the artist directly. The artists will also be in charge of delivery and replacing sold works.

You would be responsible for providing a moveable hanging system to accommodate the artwork and reasonable security. Exhibit changes will be made at your convenience according to a schedule agreed to by the Museum and the artist.

We would love to chat with prospective galleries about this opportunity.
